

Osa, learning with origami

Osa is a pedagogical kit for all people with learning difficulties, offering an versatile tool, easily adaptable for all teachers and educators.

Short presentation, Osa is :

- A pedagogical kit
- A favourable environment in which to learn basic educational concepts (mathematics, geometry, storytelling, etc)
- Manual activities useful for developing autonomy, self-confidence and concentration.
- A tool which may be perfectly adapted to the practices of teachers and educators

Osa has been conceived for :

- Children from 7 years old
- Teenagers
- Adults
- People who have cognitive disabilities, serious difficulties in concentrating, memorizing, and reading.
- Teachers, special-needs educators, etc

Le principe de base :

Conceived for groups of 4 to 25 students of equivalent or dissimilar levels.

Osa contains :

- 2 "crown" handbooks
- 2 "boat" handbooks
- 1 "fish" poster (first level)
- 1 "fish" poster (second level)
- 1 complete teacher's guide - activity cards as per your aims, skills, expertise, social-skills, reproducible worksheets than can be adjusted according to the competences of the students and 4 typical sessions.

Tool cards can be printed on Swell Touch paper. This special printing creates tactile images for blind people.

- 2 movies are included in this pedagogical kit. The first tells the story of a figure folding and unfolding. The second explains the folds.
- A stock of paper having the same features as the handbooks. In this way the learner can fold in the same manner (same size, same color, same texture).

Osa, learning with origami

OSA is :

- 4 years of hard work
- More than 200 people who have tested this method. These people were with or without cognitive disabilities, serious difficulties in concentrating, memorizing or reading.
- An evaluation during 10 days in immersion with special-needs teenagers.
- Edition, manufacture and publication 100% Breton.
- **Price : 139 euros (shipping fees excluded)**
